coloring book  
summer 2020

## Tips:

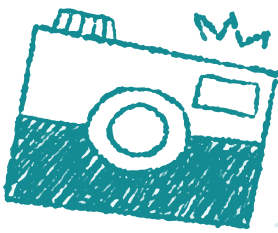

- Choosing “actual size” as the size when you print is ideal. This will give you the most room to color, and make sure that none of the design is cut off the page.
- Color digitally if you want to save ink! Just take a screenshot of the page you want, and open in your favorite art app.

Good Free apps for ipad: Paper (by WeTransfer) or Medibang Paint
